

# ANOTHER DAY

( Slow )

Testo e Musica di **NELLI**

Every night I sing and play all around world  
with never time to stop and seattle down  
but this time I know that something changes me  
cause the way I feel tonight is real love.

When I first saw you I felt something inside me  
my soul just told that you will be the one  
I don't even know what was your name  
but my heart just ready call you love.

Another day another life  
cause now it's time to say good bye  
but if you wait for me a while  
I will come back with all my love

if sometime in the night you feel lonely  
and think that all the world is against you  
just look the sky and find the biggest star  
and in one moment I will be with you.

Another day another life  
cause now it's time to say good bye  
but if you wait for me a while  
I will come back with all my love.
