

# STAY WITH ME

Testo e Musica di:  
**LUCIANO NELLI**

I Don't know happened in my mind tonight,  
may be I'm going crazy without you.  
I can't see the people in the face tonight,  
only a few shadows in the street.

I remember when you was with me last night  
I was very happy with your love.  
So don't go away from me once more again  
you are the one i want for all my life.

Say you gona    stay with me  
                                 stay with me baby  
Cose without your love i feel like crazy  
say you gona    stay with me  
                                 stay with me baby  
please don't go away from me again.

Cose tou're so unpredictable  
and you are so incredible  
and you are so unforgettable  
to me.

Walking like a robot in the street tonight  
and your face are always front of me.  
A few friends i find they ask me about you  
and i don't know what i'm gona say.

Say you gona    stay with me  
                                 stay with me baby  
Cose without your love i feel like crazy  
say you gona    stay with me  
                                 stay with me baby.  
Please don't go away from me again  
Cose you're so unpredictable  
and you are so incredible  
and you are so unforgettable  
to me
