

STAR

DISCO DANCE

Testo di L. NELLI

Musica di L. NELLI - G. SIBALDI

When I first saw you I said to myself
what a wonderful dream in the world
and all my body started shaking
when you said to me I don't want stay alone.
You made me feel like a queen
you made me feel special things
then when you left me alone I felt so bad inside
that I can't stand no more.
You made me feel like a queen
you made me feel special things
and until now I've been lonely
and I wait for you coming back with your love
You're a star, you're a star, you're a star, you're a star,
you're a star, you're a star, you're a star to me.
Rit.: When I see the sky in the starry night
you're the one so bright you're the biggest star
you can burn my eyes with your sparkling light
you can burn my heart with your burning love.

Orch.
